

# MANUFACTURING CAPABILITIES BRIEF

- CNC Machined Components and Assemblies
- CNC Turning (14 Machines) up to 14" diameter x 24' length
- CNC Milling (38 Machines – Horizontal and Vertical) up to 78" x 26" x 20"
- 4-Axis precision machining
- Wire EDM and Hole popping capabilities
- CMM Co-Ordinate Measuring Machine
- Microview Vision and Comparator Inspection
- Tolerances .001 True Position
- Assembly and packaging

**We specialize in Defense & Aerospace products working with aluminum & steel**  
(including high temperature & stainless alloys) from bar/plate stock and net shape processes (castings, forgings, extrusions, etc.). Crew-Served Weapons Systems – including multiple components for:

M2

M60

M240

M249

MK19

**We are the Current DOD Contract Supplier of Record for Pawl, Assembly, Belt Holding (M2 .50 Caliber Machine Gun)**

**WE'RE THE NEXT-BEST THING TO AN IN-HOUSE CNC SHOP!**
